HOW IT STARTS

DAY 1

We sit with you and set your services, prices and common patient questions.

DAY 3

We build the agent and test it with you on real cases.

DAY 7

It starts answering your patients.

WE GUARANTEE IT WORKS.

Before we start, we write down 4 clear checks with you (for example: answers prices correctly, books without anyone stepping in, hands over to staff when needed). We fix it free until it passes all of them.
